

Aava Whistler Hotel opens doors and welcomes guests

The Aava Whistler Hotel opened its doors to the world with a stunning debut November 26, 2009. Offering a quiet and intimate refuge just steps away from the heart of Whistler Village, Aava Whistler Hotel combines impeccable service and modern elegance with the comforts and conveniences of home.

"After two years of construction, Aava Whistler Hotel is ready to welcome the Whistler guest looking for it all - location, value, service and style," says Jaime Dunn, Director of Sales and Marketing. "From the design to our amenities, Aava is a hotel with panache, but not at the expense of practicality."

Aava Whistler Hotel's spacious facilities accommodate business and destination travelers. In addition to offering 185 suites, the Aava Whistler hotel includes meeting space for 120 participants; a fitness centre, sauna, sun deck with heated outdoor pool and hot tub; and the famous B.C. original, an on-site White Spot restaurant. The White Spot in Whistler will be a flagship location featuring a new design direction with natural elements like wood and rock, fireplaces, an open kitchen and cozy booths. Aava's guests can access White Spot through an underground tunnel from the hotel or cozy up for the evening with room service.

Formerly the Coast Whistler Hotel, Aava Whistler is managed and owned by TA Enterprise Berhad. TA Enterprise is focused in establishing itself as a luxury lifestyle property developer with a niche in residential and commercial developments.
