

Pre-sales begin for Iron & Whyte MOSAIC Development

MOSAIC is pleased to introduce a collection of 32 white brick apartment homes located in the established village of West Point Grey Vancouver real estate district. These spectacular new Westside Vancouver homes feature timeless exterior architecture and views of the ocean, North Shore mountains, or the lively 10th Avenue shops.

The bright, contemporary interiors range from 537 to 1,098 square feet (much larger floor plans than other competing area developments) and offer flexible, open floor plans. Interiors include a gourmet kitchen with 30" Viking gas range, Blomberg integrated appliances, Hanstone countertops, European-style matte lacquer cabinets, Brushed oak engineered hardwood flooring and more.

The Westside Vancouver Iron & White apartment homes feature large garden terraces, expansive patios or full-length balconies that effectively extends the living space by more than 25%. The development's exterior of tumbled white brick and striking metal accents will blend seamlessly into the community.

Iron & Whyte is close to the city, a short walk to Pacific Spirit Park or Locarno Beach, and near the amenities and services of the University of British Columbia.

Pre-sales for the MOSAIC Iron & White Vancouver apartments have begun. Estimated completion date is early 2012.
